

Consent form and data protection information for laboratory experiments

The Berlin Social Science Center (Wissenschaftszentrum Berlin für Sozialforschung, WZB), Reichpietschufer 50, 10785 Berlin is conducting a scientific laboratory experiment in the laboratory of Technical University Berlin today. You have been recruited for this experiment because you have registered in the recruitment system on our website. The experimental procedures will be explained to you before the start of the experiment.

During the experiment you will face a number of different tasks and your responses will be recorded by our computer system. The data recorded in the experiment do not allow any inference on the participation respectively the responses of individual persons. Correspondingly, the analysis and presentation of all results of this experiment will be anonymized. The anonymous research data will be archived and will possibly be made available to other scientists for further use.

The data generated in the experiment will not be linked to the data in the recruitment system. The signed receipts for the payment of the compensation will always be stored separately from the experimental data. Participation in today's experiment is of course entirely voluntary. There will be no disadvantages for you if you decide not to participate. You have the possibility to exit an experiment at any time.

We want to ask for your consent to participate in the experiment and to the implied processing of data. You can revoke your consent at any time with an effect for the future, for example, by sending an e-mail to experimente@wzb.eu. Your consent is at the same time the legal basis for the processing of data.

For any further information about the processing of your data and data protection, especially about your rights to disclosure, correction, deletion, limitations of processing of data, objection, data transmission and complaints to a supervisory body, please contact the data protection officer of WZB: datenschutz@wzb.eu.

A print out of this information is available in the laboratory.

You cannot participate in today's experiment without consenting. If you do not wish to consent, please talk to the administration of the laboratory. Thank you.

I have read the data protection information and I consent to participation in the experiment and the stated processing of data:

Yes No
